Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Sunday 12 Sep 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Dry for most, but rain for parts of the southwest.

This Evening and Tonight:
Rain affecting parts of Wales and western England with some heavy bursts, perhaps spreading to parts of the Midlands and northern England. Dry elsewhere with clear spells, turning chilly across northern Scotland.

Monday:
Further spells of rain moving slowly northeastwards, though remaining dry across northern Scotland and much of eastern England. Temperatures close to average.

Outlook for Tuesday to Thursday:
Showers or spells of rain Tuesday, heavy in places, becoming drier from the west later. Sunny spells and scattered showers Wednesday and Thursday, outbreaks of rain reaching the northwest later.
